Description

1. Reformatted the entire index page
   Added a capable multi-page linking system
   Implemented a working header with bootstrap
   Linked all pages with header
   Made approx. 1,000,000 divs to accommodate for Redmine
   Changed some color schemes
   Added a BUNCH of JS and other fancy related things
   Learned a lot more about HTML, CSS, and JS (thanks W3)
   Constructed interview pages for every group member
   Constructed a general Contextual Design page
   Created a Slack Channel with a few handy add ons for communication purposes
   Retrieved a sketch and interviewed a non-CS student
   Filled out most of my interview related questions (waiting on more interviews so I can do synthesis)
