CS371 Fall 2017 Phone Tag - Feature #150

Tristan - Contextual Design Web Dev/Interviewing

10/25/2017 01:57 AM - Tristan Van Cise

| Status:     | Resolved          | Start date:     | 10/22/2017 |
| Priority:   | High              | Due date:       | 10/25/2017 |
| Assignee:   | Tristan Van Cise  | % Done:         | 90%        |
| Category:   |                   | Estimated time: | 0.00 hour  |
| Target version: |               | Spent time:     | 27.13 hours|

Description

1. Reformatted the entire index page
   - Added a capable multi-page linking system
   - Implemented a working header with bootstrap
   - Linked all pages with header
   - Made approx. 1,000,000 divs to accommodate for Redmine
   - Changed some color schemes
   - Added a BUNCH of JS and other fancy related things
   - Learned a lot more about HTML, CSS, and JS (thanks W3)
   - Constructed interview pages for every group member
   - Constructed a general Contextual Design page
   - Created a Slack Channel with a few handy add ons for communication purposes
   - Retrieved a sketch and interviewed a non-CS student
   - Filled out most of my interview related questions (waiting on more interviews so I can do synthesis)

History
