### Description

1. Reformatted the entire index page
   
   - Implemented a working header with bootstrap
   
   - Linked all pages with header
   
   - Made approx. 1,000,000 divs to accommodate for Redmine
   
   - Changed some color schemes
   
   - Added a BUNCH of JS and other fancy related things
   
   - Learned a lot more about HTML, CSS, and JS (thanks W3)
   
   - Constructed interview pages for every group member
   
   - Constructed a general Contextual Design page
   
   - Retrieved a sketch and interviewed a non-CS student
   
   - Filled out most of my interview related questions (waiting on more interviews so I can do synthesis)
