## Description

1. Reformatted the entire index page
2. Added a capable multi-page linking system
3. Implemented a working header with bootstrap
4. Linked all pages with header
5. Made approx. 1,000,000 divs to accommodate for Redmine
6. Changed some color schemes
7. Added a BUNCH of JS and other fancy related things
8. Learned a lot more about HTML, CSS, and JS (thanks W3)
9. Constructed interview pages for every group member
10. Constructed a general Contextual Design page
11. Retrieved a sketch and interviewed a non-CS student
12. Filled out most of my interview related questions (waiting on more interviews so I can do synthesis)

## History

**#1 - 10/30/2017 09:27 PM - Tristan Van Cise**

- Status changed from In Progress to Resolved
