Cron Script Error Message

03/17/2014 09:07 AM - John Quan

Status: Closed
Priority: Normal
Assignee: John Quan
Category:
Target version:

Description

Try to fix this error in one of my cron scripts, which may be caused by the period in brian.hay when compared with the login name change to brian_hay due to redmine's git repo naming policy.

```
/opt/bitnami/apache2/logs/ssl_request_log:

[17/Mar/2014:08:56:01 -0800] 137.229.113.134 TLSv1 DHE-RSA-AES256-SHA "POST /redmine/projects/brian_hay/memberships HTTP/1.1" 137

/var/mail/root:

History

#1 - 05/14/2015 12:01 PM - John Quan

- Status changed from New to Resolved
- % Done changed from 0 to 100

I solved this sometime in December 2014, but forgot to update this job. I just added this on line 44:
```
user_login=`echo $user_login | tr '[A-Z]' '[a-z]' | sed 's/[[:digit:]]//g`
```

#2 - 05/14/2015 12:23 PM - John Quan

- Status changed from Resolved to Closed

I solved this sometime in December 2014, but forgot to update this job. I just added this on line 44:
```
user_login=`echo $user_login | tr '[A-Z]' '[a-z]' | sed 's/[[:digit:]]//g`
```
